

**“Education is not
the learning of facts,
but the training
of the mind to think”**

-Albert Einstein

Planned Absences Other Than School Holidays:
It is the school's philosophy that attendance at school is of primary importance. However, there are times when an absence is unavoidable. In such cases, the parent is to contact the Principal/Administration of the school in advance, whenever possible. Assignments and examinations may not always be available in advance and may have to be completed upon the student's return. Students are responsible for missed class work assigned when out of school for non-holiday reasons. If a student misses more than 10 days in a semester or 20 days in a year, a parental meeting would follow to discuss further consequences and the school could reserve the right to dismiss a student if the absences have affected their progress.
